

LCD Analyst Team

2/2/2021

Attendees: mary, aubin, phil, erin, sean, natalie

- Transboundary meeting
 - Biden and Trudeau admin to work on large landscape conservation gains, environmental justice
 - Jodi Hilty and Gary Tabor and Harvey Locke - held a 90 minute meeting - went over bigger picture federal frameworks - trudeau's and Biden's commitment of 30x30 and 32 x32
 - Our LCD was discussed!
 - How does the dynamic change when our work is folded into larger agendas? - **Sean** will circle back with Elsa to let her know that folks on the ground our seeing our work represented
 - How well are we connected to other crown groups (ie. gary, melly)
 - On a personal level, not closely connected
 - LCC - will there be a push to bring these back?
 - Have not heard about the LCC specifically, but hearing vague calls for big ideas related to large landscape work - convos are happening in USFWS - wouldn't be surprised if something came out of Dept of Interior
 - Conversations are also happening at the Climate adaptations Science center - Obama Admin set up 6 or 8 of these - we are most related to Northwest Climate Adaptation Science Center - funds for climate science
- Funding Stuff
 - U.S. Congress Sets Aside \$3.6 Million for Transboundary Watersheds
 - Phil sent via email - this is the federal appropriations that Erin has been working on - very specific to address mining impacts
 - Phil chatted with Kat and living lakes Canada - hoping to merge water quality datasets together
 - **Erin and Phil** will have an additional chat to double check if all funds are appropriated
- Infographic
 - Mary is creating an infographic of our 2020 progress - will send it out for input
 - It is an internal audience, not an external audience
 - **Mary** will send it out today to the group to review for feedback
- Species level mapping
 - Mary is ready to do species level mapping
 - **Natalie** work on pulling Native Salmonids and five needle pine data together for the next 2 weeks for BC and AB - prepping for Marxan
 - **Phil** will work on prepping ungulate data for Marxan
- Task tracker
 - 1. Generate draft conceptual models
 - Feel free to use miradi to make more detailed

- What to do if you don't have Miradi?
 - 1. You can download a free trial
 - 2. You could draft on paper and scan and send to someone who does have Miradi
 - 3. [Lucidchart](#)
 - **Natalie** will resend WBP and Native Salmonids conceptual model - available [here](#)
 - 2. Take draft conceptual models and convert into tables - begin considering desired versus not desired conditions
 - This is what we will take to SME
- Clayton Lamb meeting
 - Natalie, Sean, Kathy, and Clayton had a conversation - Clayton will be doing connectivity work
 - Some data is his own, some is what he has assembled from others - he is willing to share some of his data with us (fur bearer and ungulate) - most of that data is collar data
- DSA
 - **Natalie** will reach out to Jason and Nikki again
 - Sean needs to get more specifics from kathy on partners willingness to share data
- Tech team call
 - **Natalie** will cancel next week's tech team call - ask folks for subject matter expert names
